RE: Scope determination on antidumping duty order on aluminum extrusions from the People's Republic of China (A-570-967)

1. On 08/14/2014, in response to a request by Districargo Inc. (Districargo), Commerce issued a final scope determination that Districargo's exhibition booths which Districargo imports are within the scope of the antidumping duty order on aluminum extrusions from the People's Republic of China (A-570-967).
2. At issue in the final scope ruling were exhibition booth kits, which are composed of an "upright aluminum extrusion" or pole, extruded aluminum beams, and various iron buckles that are used to connect the extruded aluminum pieces together. Because the imported product is comprised of extruded aluminum products with a series designation commencing with the number 6, save for iron buckles that are used to connect the various extruded aluminum parts, we found that they did not meet the exclusion criteria for a finished goods kit. We based our finding on the language in the scope of the order which states that, "an imported product will not be considered a 'finished goods kit' and, therefore, excluded from the scope of the investigation merely by including fasteners such as screws, bolts, etc. in the packaging with an aluminum extrusion product." Thus, Commerce found the exhibition booths at issue to be within the scope of the order.
3. Continue to suspend liquidation of entries of aluminum extrusions from the People's Republic of China, including exhibition booths imported by Districargo described above, subject to the antidumping duty order on aluminum extrusions from the People's Republic of China.
